Remove tri-tip from package and place in a 4-8-quart slow cooker. Add one cup of water. Cook on low for approximately 8-10 hours or on high for 4-6 hours. Verify the internal temperature reaches 160°F as measured with a food thermometer. Remove from slow cooker and let rest before slicing.

Preheat the smoker to $225^{\circ}F$. Remove tri-tip from the package and place it on the cooking surface with the fat side down. Smoke the tri-tip for $3\frac{1}{2}$ to 4 hours to an internal temperature of $160^{\circ}F$ as measured with a meat thermometer. Remove from the smoker and let rest for at least five minutes before slicing across the grain.

Preheat your grill to high heat. Remove tri-tip from the package. Grease the grill or brush oil directly onto the meat. Place the tri-tip in the center of the grill over direct heat. Cook for 5 minutes, then flip and repeat. Move to indirect heat and cook for about 10-15 minutes per pound or until the internal temperature reaches $160^{\circ}\mathrm{F}$ as measured with a meat thermometer.
